

SiteGuard Trailer Pro

**Comprehensive Surveillance
Solutions for Every Jobsite**

Security Monitoring Camera Trailer

Introducing SiteGuard, a cutting-edge trailer equipped with Dual 800 Watt 24 Volt DC Solar Systems, providing a battery reserve bank for up to 5 days of uninterrupted operation even in adverse weather. Local delivery and setup services are available across all 50 states, with options for both rental and purchase to meet your project's needs efficiently.

Monitor Jobsites Wirelessly, Made Easy

With reliable 4G LTE cellular connectivity, this system ensures seamless wireless operation in remote locations. Featuring a 20-foot telescoping mast and compatibility with standard vehicle hitches, it is designed for easy transport.

Elevate Your Jobsite Surveillance

Enhance security with a variety of packages that include multiple cameras, strobe lights, two-way audio, sirens, and optional floodlights. Our systems are fully compliant with builders risk insurance specifications, including those from Highland. Central Station Monitoring services available.

About AI Site Cam

We are a leading provider in the technology and security camera systems industry, specializing in innovative solutions for construction site monitoring.

AI Site Cam allows for real time access to site progress, archival footage, and enhanced security measures, all accessible through your mobile device or desktop PC.
