

SiteGuard Pro Z50

**Precision Zoom meets
Advanced Site Intelligence**

Advanced AI Monitoring PTZ Camera

With 50x optical zoom and upgraded AI detection, it's built to handle wide-area monitoring with precision. From tracking vehicles to identifying people at a distance, AI SiteCam's 50Z gives you better visibility and faster response—no matter the site. The 50Z is made for wide-area coverage—use it anywhere—from busy job sites to remote access points. The 50Z gives you more visibility, more control, and a faster way to act. Let your team see what's important, faster.

Advanced Zoom for Enhanced Detection

With 50x optical zoom, the SiteGuard Pro 50Z gives you a clear view—no matter how far the action is. From license plates at the edge of a yard to movement along a fence line, you get detail that typical cameras just can't reach.

Its upgraded AI helps you track people, vehicles, and other activity with more accuracy and fewer false alarms. So you're not guessing—you're seeing exactly what's happening.

The Ultimate Solution to Monitor Jobsites

With enhanced AI detection, better identify and track vehicles, people, and other objects. This means fewer false alarms, more useful alerts, and a clearer picture of what's actually happening on-site. SiteGuard Pro 50Z gives you sharper vision and smarter control—all in a rugged, all-weather unit your crew can depend on.

About AI Site Cam

We are a leading provider in the technology and security camera systems industry, specializing in innovative solutions for construction site monitoring.

AI Site Cam allows for real time access to site progress, archival footage, and enhanced security measures, all accessible through your mobile device or desktop PC.
