

SiteGuard

*Uninterrupted Jobsite
Security, Day and Night*

Site Security Camera System

AI Site Cam offers robust solutions to prevent vandalism, damage, and losses on your job site. Our Site Security Camera Systems are designed to identify threats in all lighting conditions, including complete darkness. HD and 4K Resolutions for recording video. Powerful 30x Optical Zoom. All standard.

Maintain Safety, Alert Authorities

Featuring 2-Way audio with built-in Central Station Monitoring services, our talk-down mode allows for direct communication with intruders, helping to deter potential threats. In case of an incident, local law enforcement will be notified for quick response, ensuring your site remains secure.

Jobsite Security, 24/7

SiteGuard's 120V AC power capability ensures reliable operation, while its Wi-Fi connectivity allows for seamless communication and remote access. SiteGuard offers a reliable and efficient solution for safeguarding your assets and ensuring smooth operations.

About AI Site Cam

We are a leading provider in the technology and security camera systems industry, specializing in innovative solutions for construction site monitoring.

AI Site Cam allows for real time access to site progress, archival footage, and enhanced security measures, all accessible through your mobile device or desktop PC.
