

SiteWatch Pro

*Intelligent Site Monitoring-
Solar Power Meets Smart Security*

Site Monitoring PTZ Camera

The AI Site Cam SiteWatch Pro model offers an impressive 355-degree field of view, ensuring comprehensive coverage with a fixed camera atop a PTZ robotic camera featuring 20x optical zoom. This setup allows for detailed monitoring and documentation, making it ideal for both security and operational needs. HD and 4K Resolutions for recording video.

Securely Monitor Your Jobsites

SiteWatch Pro features solar-powered capabilities, providing continuous operation in remote locations. With secure, 4G/LTE cellular connectivity, your jobsite will stay connected while receiving customizable alerts tailored to your preferences.

Stay Connected, 24/7

Secure 4G/LTE Cellular Connection on Verizon, AT&T and T-Mobile networks as well as 28 networks worldwide. Our cameras will search for the strongest connection at any given time, assuring constant connectivity.

About AI Site Cam

We are a leading provider in the technology and security camera systems industry, specializing in innovative solutions for construction site monitoring.

AI Site Cam allows for real time access to site progress, archival footage, and enhanced security measures, all accessible through your mobile device or desktop PC.
